TAMPERING AND/OR MISREPRESENTATION as to breeding, age, ownership and any other irregularity in showing will be considered fraud and deception.

Exhibitors who are found to have entered and/or exhibited the same animal in more than one county fair 4-H Achievement show will be banned from exhibition of livestock at the Clayton County Fair for a period of no less than five (5) years.

7. It is the intent that the 4-H and FFA members take responsibility for the caring and grooming of their animals. No grooming chutes will be allowed in the scale building.**
8. Animals shall be presented to show events where they will enter the food chain free of volatile drug residues. The act of entering an animal in this livestock show is the giving of consent by the exhibitor for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing.

Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal and state statutes, regulations and rules.

Livestock shall not be exhibited if the drugs administered in accordance with federal and state statutes, regulations and rules affect the animal's performance or appearance at the event. If laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved, and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the exhibitor to prove otherwise.

After an animal arrives on the fair premises, no drugs or medications of any kind may be administered except by a licensed veterinarian or by the order of a licensed veterinarian.

9. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance (except external applications of substances to the hoofs or horns of animals which affect appearance only) and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited. All livestock may be wiped with a towel prior to entering a show ring.
10. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
11. To maintain a high degree of confidence and integrity in the livestock shows, the Clayton County Fair Ethics & Rules Committee established by the Clayton County Fair Board reserves the right to disqualify any animal fitted in an unethical manner and disqualify the exhibitor and the exhibitors' assistants who fitted the animal involved.

All exhibitors, their immediate family and any other parties involved in the unethical fitting and showing of an animal will be barred from exhibiting or showing at the Clayton County Fair and will forfeit all premiums, prize money and awards won in any division.

SHOULD FRAUD OR DECEPTION, AND PROOF, AS DETERMINED BY THE CLAYTON COUNTY FAIR ETHICS & RULES COMMITTEE BE DISCOVERED AFTER THE ANIMAL OR ANIMALS HAVE BEEN SHOWN AND PRIOR TO THE AUCTION, such animal shall not be permitted to sell. If the Grand Champion is disqualified, the Reserve Champion will become the Grand Champion. No other animals will be advanced.

SHOULD VIOLATION BE DISCOVERED AFTER THE SALE, all sale money shall be returned to the buyer and the animal, carcass or carcass value shall be returned to the exhibitor. All placings in the show will stand. No animals will be advanced.

Any carcass suspected of being tampered with or suspected of containing drugs will be detained until The investigation is complete. CARCASS CONDEMNATION at the packing plant due to unethical or illegal practices shall be grounds for disqualification in the on foot and carcass division of the show. Additionally, all premiums and sale money shall be forfeited and the loss of the animal be incurred by the exhibitor.

All exhibitors whose animals give evidence of such treatment will be barred indefinitely from exhibiting at the Clayton County Fair. In addition, any exhibiting family whose animals are found suspect of using illegal drugs at any fair or livestock show holding membership in the Iowa Fair Association will be barred indefinitely from showing at the Clayton County Fair.

12. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
13. The Clayton County Extension Director has the right to ask an exhibitor to remove an animal that is believed unsafe for exhibition. The animal must be removed from the fairgrounds by the exhibitor within a reasonable amount of time as determined by the director.
14. Exhibits (except horses, ponies, and dogs) must be put in place between 7:00 a.m. and 11:30 a.m. on Thursday, August 6 and must remain on exhibit until 8:30 p.m. on Sunday, August 9. Horse, pony, and dog exhibits will arrive on the fairgrounds before their respective shows and remain on the fairgrounds until after the show.
15. It is prohibited to leave any haltered animal on the fairgrounds without being held or tied. After 7:00 p.m. each evening, all cattle must be double tied, unless a show is in progress.
16. All livestock classes will be called to the show ring over the public address system. Exhibitors will be responsible for entering the show ring when called.

17. Exhibitors must do their own showing unless substitute 4-H or FFA members are approved by the general superintendents. This rule applies for all classes including championships, dairy herd classes, and beef herd classes.
18. All animals entered in the purebred classes must be registered. The registration papers must be brought to the fair. Papers will be checked on Thursday when cattle are unloaded. With the following exceptions, all animals and birds must be owned by the 4-H'er, or in partnership with a family member, and identified with an individual 4-H'er. When registration papers are involved (*e.g.*, purebred beef heifer) the papers must be in the 4-H'er's name or show a logical family relationship. For example, Jones Family Farms shows a logical family relationship to Emily Jones, but B&G Farms does not. All animals may be identified by only one 4-H member or FFA member
19. **Clayton County Purebred Holstein Share-a-Heifer Agreement: The objective of the share-a-heifer project agreement is to allow 4-H & FFA members to care for and exhibit a registered Holstein without having to transfer registration papers. The Share-a-Heifer Agreement must be completed and turned into the Extension Office along with the official ID form (4H106) and a copy of the registration paper by May 15. These animals are NOT eligible for state fair.**
20. There will be a showmanship contest in the dairy, beef, swine, sheep, dairy goat, meat goat, poultry, rabbit, dog, and horse & pony departments. The showmanship divisions within each department are divided according to the grade of the exhibitor during the 08-09 school year. The number of showmanship divisions varies by department (see class descriptions in each department). Exhibitors who have won the respective grade division in previous years are ineligible to compete in that division. A previous winner may advance to the next level of competition. Exhibitors must use their own animal in the showmanship classes.

27. Following the fair, clubs and chapters must clean the pens & cages for all rabbits, poultry, swine, sheep, other animals and goats housed with the sheep. Mounting is required for all entries in this class. Use of standard commercial photo mats is acceptable provided that exposed area of photo is not less than 4 ½" x 6 ½". VISUAL ART

1. Articles made from kits or preformed molds will be accepted but will **not** be considered for state fair competition. **EXCEPTION:** See Class 821B item #2. (Kits are defined as any prepackaged item where the materials and the design are predetermined by the manufacturer. Examples of preformed molds would be purchased greenware or whiteware.)
2. If the exhibit results in a finished art object, **you must** include the picture of the source of the design, the design sketches, or process for creating the design. This might include cut paper designs, sketches, a piece of tree bark, doodles, magazine pictures (identify the magazine and issue).
3. The written description of the exhibit **must** identify the design element(s) and/or art principles used in this particular exhibit and **how it is used**. (Example: "I used the primary colors of red, blue and yellow to emphasize the geometric shapes" not just "the element I used was color".) Design elements are line, shape, color, texture, and space described in the project manual "*Celebrate Art*" Unit 1, pages 11-13. Principles of design are rhythm, proportion, emphasis, balance and unity described in the project manual "*Art in Your Future*" Unit 2, pages 10-14. Also refer to publications 4H-633 *Color* and 4H-634 *Design, Exploring the Elements & Principles*.
4. **Copyright logos, designs, or trademark materials** should not be used for visual art exhibits on public display at a fair or other setting without written permission. If written permission has been obtained for an exhibit in the **techniques class**, it should be included in the written support materials of this exhibit. For display purposes, **exhibits will then be labeled** "Copyright permission granted." These materials are never appropriate for the Original Art class. You do not need to request permission to use the 4-H emblem. This is granted to you as a member of the 4-H program, as long as you are not making money from its use.

Class 821A Original Art -- Original Art should be an exhibit that has a **design** unique to you. By using one medium or a combination, an individual creates an object that is not recognizable as another's work. Trademarks, logos, and other copyrighted images **cannot** be original since some other artist has already designed and created it. You must identify and explain the application of the design element(s) and art principle(s) featured in this exhibit and describe or explain the source of the design.

Does one (or more) of the following questions help describe what your exhibit is about?
If it sounds like your exhibit, it should probably be in the Original Art class.

1. Did your idea come from something you thought up, the placement of geometric shapes, or something viewed in nature?
2. Did you see a design, magazine picture, painting, etc. that gave you an idea and you made **major changes** to that idea? (Include the source of design and explain the major changes.) You know it is a major change if you quickly look at your original source and your exhibit and they DO NOT seem similar.
3. Did you create your exhibit by observing things around you like looking at a still life or from a photograph you took of a scene?
4. Are the people in your exhibit (drawing, painting) ones you observed, studied, sketched, or photographed and not people you saw in a magazine or other photograph? (If the person is identifiable from your picture, did you request their permission to use them in your art work?)

Class 821B Design and/or Technique Exploration – This exploration class is an exhibit that provides an individual the opportunity to explore a medium, practice a skill or study a design element or art principle. An explanation of the application of design elements or art principles used when making the exhibit **must be included**. This exhibit may be an object, portfolio, display, poster or organized sketch book. If a non-original design source is used, it's origin (where the idea was found, any pictures, sketches, etc.) must still be created. Logos, trademarks, pictures or designs that are copyrighted may only be used if permission for this specific use has been granted from an authorized authority. The written permission must be included in the support materials provided with the exhibit or the piece is not legal for public display and will be disqualified. For display purposes, those exhibits with written permission will be labeled "Copyright permission granted".

In this Class:

1. Directions may be used to make the exhibit (basket weave pattern, quilt pattern, process instructions, i.e. tie dying). Include the source of instructions or copy of the instructions. In your write-up be sure to focus on the design elements or art principles used in making decisions to develop the exhibit.
2. It may be a process evaluation shown by examples that demonstrate a different step of the process needed to complete a finished product. This process evaluation is the **only** acceptable place to exhibit portions of greenware or whiteware to provide the appropriate surface to illustrate the process techniques being explored. Processes could include glazes, paint blending, surface preparation to the final product. A finished product will only be used in the evaluation to determine level of accomplishment of the goal.
3. A portfolio showing several examples of practicing techniques of a medium where you used design ideas from photos, magazines, and/or pictures should be included. You must credit the sources of design ideas.
4. You may use a series of rubber stamps, stencils, etc. to create a design, develop technique or study color and texture. Detailed explanation of the use of the design elements/art principles is required.
5. Create a picture while practicing and improving your technique(s) of drawing, shading, blending, etc. The write-up focuses on the techniques practiced to demonstrate skills in applying the design elements and/or art principles.

Class 821C Other Visual Art Topics -- Exhibits might include study of an individual artist, style, craft business or marketing process, planning group tour, career options, etc.

Class 821Z Non-Original Art - Any exhibit which is not the original design of the exhibitor. Exhibits could be articles made from kits or pre-formed molds, or when the exhibitor only changes color, size, or materials of a pre-existing pattern or picture (e.g. ribbon instead of fringe, blue floss instead of pink, gingham instead of calico, etc.). Kits are defined as any pre-packaged item where the materials and design are pre-determined by the manufacturer. Examples of pre-formed molds would be purchased greenware or whiteware. Exhibits in this class are not eligible for State Fair consideration.

DEPARTMENT U COMMUNICATIONS PROGRAM

1. Educational presentations may be given by one or more 4-H'ers. Teams consisting of youth in mixed grades must be entered in the class of the member in the highest grade level. (I.E. A team with a 5th grader and an 8th grader must be entered in the intermediate/senior class.)
2. 4-H'er participating in the 4-H communications programs are encouraged to wear appropriate clothing representative of the 4-H youth development program and/or topic of the presentation/working exhibit (shorts, skirts, and dresses should be fingertip length or longer). If clothing contributes to the topic being presented, such as wearing a beekeeper's outfit while doing a presentation or working exhibit on bee raising, the 4-H'er should be aware this is acceptable and appropriate. Where distinctive clothing is not involved, clothing that alerts the public that it is a 4-H'er giving the presentation, working exhibit, extemporaneous speech, or participating in Share-The-Fun is strongly encouraged.
3. Topic selection should be appropriate and should be an outgrowth of the presenter's 4-H experience. The topic should determine its length. Intermediate and senior presentations (grades 7-12) have a maximum length of 20 minutes. Junior presentations (grades 4-6) have a maximum length of 15 minutes. The maximum length of time for intermediate and senior (grades 7-12) working exhibits will be 45 minutes. Junior working exhibits (grades 4-6) is 25 minutes.
4. 4-H'ers giving presentations/working exhibits involving food must be concerned about safe handling of the food they are using. 4-H'ers should use sanitary and safe procedures and methods at all times. This is tremendously important if samples are available to the viewing public. Appropriate storage of the food items and the sanitary handling of the food must be demonstrated by the 4-H'ers. Plastic gloves and hairnets are just a couple of items that should be considered and used as appropriate.
5. **Presenters are expected to comply with all copyright/trademark regulations. Copyrighted material may not be distributed without permission.**
6. Six educational presentations, four working exhibits, two extemporaneous speaking entries, three Share-The-Fun acts and two communicating through posters exhibits may be selected to advance to the state fair. Participants **cannot** be involved in another event such as Working Exhibit, clothing programs, livestock show, or judging during the half-day they are scheduled to participate in this program at the State Fair.
7. Entries must be filed in the county Extension Office on or before Tuesday, July 1st.

A Design Project Discovery Sheet

(For identifying design elements/principles used in an exhibit or project goals).

Take a close look at the item you are planning to create or make and work through the following questions:

COLOR

What are the colors? (list them) Are they warm or cool? Do you see different values? (light or dark) Do you see different shades? Different tints? Different intensities? Describe it...

TEXTURE

Describe the textures? (rough, smooth, soft, scratchy, firm, etc.)

LINE

Are there any lines? Describe their movement (straight, curved, thick, thin, horizontal, vertical, diagonal, relaxed, active)

SHAPE

What are the shapes you see (describe the geometric or irregular shape)?

SPACE

Describe the types of space you see (negative or positive)?

Now that you've identified the "individual" design elements the next step is to look for how these elements are arranged based on principles.

BALANCE

What balance do you see when looking at the line, color, texture, shape/form or spaces (formal, radial or informal)?

RHYTHM

What kind of organized movement do you see of the lines, color, textures, shape/form and spaces (repetition, graduation, alteration)?

EMPHASIS

What is the center or area of interest in your design/exhibit? (is it a color, similar or contrasting lines, shapes or textures...)

PROPORTION/SCALE

What is the size relationship of two or more objects to each other and the space they fill? (Proportion between the amount, value, intensity of color or between the quality and kind of textures, i.e.; the scale is the size of the parts of a design as they relate to each other)

UNITY

Describe how all the parts belong together (color, texture, line, shape or form and space) and are combined for balance, proportion or scale...

PRINCIPLES OF DESIGN

Balance—Can be formal or informal.

Formal is created when each side of the design is the same.

Informal is created when one side of a design is different than the other.

Rhythm—Forms a path they eye follows.

Emphasis—Attracts your eye to the most important part

Proportion—The relationship of sized to each other.

Unity—When a design is complete; all parts belong together.

ELEMENTS OF DESIGN

Color

Described in terms of hue, value, and intensity

Hue is the name of the color

Texture

The smoothness or roughness of an object's surface

Texture can be tactile (you can feel it) or visual (you can see it).

Line

Horizontal, vertical, dotted, zig zag, curved, straight, diagonal, bold, or fine. Line can show direction, lead the eye, outline an object, divide a space and communicate a feeling or mood.

Shape

When lines connect they become a shape.

Value of the lightness or darkness of a color.

Intensity is the brightness or dullness of a color.

Space

The actual space an object or design occupies.

The background space, sometimes called negative space, is important too.
